NoSQL #84

Edit

New issue

Open

DaKnOb opened this issue on Dec 24, 2015 · 22 comments [Start timer](#)

DaKnOb commented on Dec 24, 2015

NoSQL Databases are becoming a hot topic in Computer Science and Software Engineering. Currently we collect, store and process a lot of data. Relational Databases don't seem to be able to keep up with that. Many of us already moved to NoSQL databases or want to do it soon.

I propose a talk on NoSQL databases, their types, some basic information on how they work and some tips we may have for both administration as well as development.

If you're interested in this topic please comment below including the `:+1:` icon. If you posses enough knowledge and are willing to speak about this topic, please include the `:speaker:` icon.

Devstaff Community Job Openings

In this section you can find some job openings listed by our community members. If you want to add a new job opening do it at the top of the list below, git commit, git push and create a pull request on github.

Web Developer at Cyberlogic

- PubDate: 2016-04-13
- More info at: <http://www.cyberlogic.gr/jobs>

Info General

- Every 2nd Thursday of every month we have a new Meetup
- In between meetups we hold a “beerup” meeting to discuss the community/issues, decide and get together in general
- Raise github issues if you need something
- Vote (make sure to indicate your willingness to present the issue)
- Pull request for code changes

Next MeetUp / Extra Meetup

- Next meetup will be on “Software Patterns” – 12 May 2016
- Extra Meetup will be on “Secrets of Concurrency” – 27 May 2016
